Table of Contents: Volume 39 (2003)

Number 1

Special Issue: Properties of Concrete and Behavior of Concrete Columns Subjected to Fire
Guest Editor: Jean-Marc Franssen

Guest Editorial ..... *Jean-Marc Franssen* 5
Response to "Fires Involving Appliance Housings—Is There a Clear and Present Danger?" ..... *Vytenis Babrauskas* 7
Reply from John Hall ..... *John R. Hall, Jr.* 8
Behavior of Concrete Members at Elevated Temperatures Considering Inelastic Deformation ..... *Sook Won Kang and Sung Gul Hong* 9
Effects of High Temperature on the Pore Structure and Strength of Plain and Polypropylene Fiber Reinforced Cement Pastes .... *Juha Komonen and Vesa Penttala* 23
Deterioration and Recovery of Metakaolin Blended Concrete Subjected to High Temperature ..... *Chi-sun Poon and Salman Azhar* 35
Flexural and Split Cylinder Strengths of HSC at Elevated Temperatures ..... *R.V. Balendran, Abid Nadeem, and Tayyab Maqsood* 47
Heat and Mass Transfer of High Performance Concrete for Reactor Containment Under Severe Accident Conditions ..... *M. Shekarchi, G. Debicki, Y. Billard, and L. Coudert* 63
Fire Endurance of High Strength Concrete Columns ..... *Venkatesh K.R. Kodur and Richard McGrath* 73
Fire Tests and Calculation Methods for Circular Concrete Columns ..... *Jean-Marc Franssen and J.-C. Dotreppe* 89

Number 2

Psychosocial Correlates of Wildfire Disaster: Post Disaster Adult Reactions ..... *Russell T. Jones, David P. Ribbe, Phillippe Cunningham, and J. David Weddle* 103
Effectiveness of Gas Fired Water Heater Elevation in the Reduction of Ignition of Vapors from Flammable Liquid Spills ..... *J.M. Hoffmann, D.J. Hoffmann, E.C. Kroll, M.J. Kroll, L.M. Logun, and J.R. Fowler* 119
Examining the Design of Escape Routes Using Performance-Based Criteria in a Case Study ..... *Longde Zhao* 133
Early Warning Fire Detection System Using a Probabilistic Neural Network ..... *Susan L. Rose-Pehrsson, Sean J. Hart, Thomas T. Street, Frederick W. Williams, Mark H. Hammond, Daniel T. Gottuk, Mark T. Wright, and Jennifer T. Wong* 147
The Collection and Analysis of Pre-evacuation Times Derived from Evacuation Trials and Their Application to Evacuation Modelling ..... *S. Gwynne, E.R. Galea, J. Parke, and J. Hickson* 173

Number 3

Editorial: Journal Impact Factor ..... *John M. Watts, Jr.* 203
Appreciation to Referees 2002 205
Full Scale Burn Tests of Television Sets and Electronic Appliances ..... *J.M. Hoffmann, D.J. Hoffmann, E.C. Kroll, and M.J. Kroll* 207
Analysing the Evacuation Procedures Employed on a Thames Passenger Boat Using the maritimeEXODUS Evacuation Model ..... *S. Gwynne, E.R. Galea, C. Lyster, and I. Glen* 225
Flame Retardance and Smoke Suppression of Poly(vinyl chloride) Using Multicomponent Systems ..... *Sunil K. Sharma* 247
Determination of Flame Emissivity in Hydrocarbon Pool Fires Using Infrared Thermography ..... *Eulàlia Planas-Cuchi, Josep Mª Chatris, Carlos López, and Josep Arnaldos* 261

Technical Note

Fire Safety Engineering Research and Technology Centre (FireSERT) University of Ulster: Recent Developments ..... *T.J. Shields* 275

Number 4

Special Issue on Fire Detection and Suppression
Guest Editor: James A. Milke, P.E., Ph.D.

Guest Editorial ..... *James A. Milke* 291
Letter to the Editor ..... *Vytenis Babrauskas* 293
Using Sensor Signals to Analyze Fires ..... *William D. Davis, Thomas Cleary, Michelle Donnelly, and Samuel Hellerman* 295
Effect of Smoke Source and Horn Configuration on Enhanced Deposition, Acoustic Agglomeration, and Chladni Figures in Smoke Detectors ..... *C.L. Worrell, J.A. Lynch, G. Jomaas, R.J. Roby, L. Streit, and J.L. Torero* 309
FOAMSPEX: Large Scale Foam Application—Modelling of Foam Spread and Extinguishment ..... *Bror Persson, Anders Lönnermark, and Henry Persson* 347
Investigation of Multi-Sensor Algorithms for Fire Detection ..... *James A. Milke, Matthew E. Hulcher, Clarence L. Worrell, Daniel T. Gottuk, and Frederick W. Williams* 363
Announcing the Winners of the 2003 Harry C. Bigglestone Award 383
